4 + 1 Program Application

Students who are admitted to the combined degree program may take graduate courses and double count 6 credit hours toward both their bachelor's degree and MBA. This will allow the student to complete the MBA program in less time than if the programs were done independently. The rules of the program are as follows:

1. Students may apply to the combined bachelor's/MBA program once they have completed 75 credits. They may begin taking graduate courses once they have completed 90 credits. The 90 credits must include MIS 1300, ACC 2140, BA 2010, BA 2500, and FIN 3600, the equivalent course work, or permission of the dean of the College of Business.
2. Students must have a minimum overall GPA of 3.25 to apply to the program.
3. A maximum of 6 credits can be double counted for the bachelor's and master's degree, and the full 42 credits for the MBA must be completed.
4. The two graduate courses that will double count are MBA 5000 Executive Management and one of the following:
 - MBA 5110 Management Information Systems (Prerequisite: None)
 - MBA 5130 Managerial Accounting (Prerequisite: MBA 5000 or MSE 5000)
 - MBA 5210 Business Statistics (Prerequisite: MBA 5000 or MSE 5000)
 - MBA 5220 Marketing Management (Prerequisite: MBA 5000 or MSE 5000)
 - MBA 5310 Business Ethics (Prerequisites: None)
5. Students will remain classified as undergraduates until they have completed all the requirements for their bachelor's degree. Students must maintain the overall 3.25 GPA and receive a minimum grade of B in each graduate class. If a student does not meet these requirements, he/she will be dismissed from the combined program and will lose the ability to double count the 6 credits. The student must then take the necessary course work to finish the undergraduate program.

Students must complete the graduate degree program application and complete all prerequisite courses before acceptance to the MBA program.
