

ROBOTIC WARRIORS CLUB 2025-2026

The Robotic Warriors Club (RWC) is a yearlong (16-week) after-school program where middle and high school students receive hands-on experience designing, developing, programming, and constructing robots.

A primary goal for this club is to prepare student teams to enter one of their own robots in the annual National Robotics Challenge (NRC) in Marion, Ohio held April 15-18th, 2026.

The program has three divisions— that challenge students to learn different aspects of robotics while giving them the engineering tools and team development to take on division specific learning outcomes. Student will be assigned a division based on experience and work in teams.

PROGRAMMING INCLUDES:

- Constructing and coding competition specific Robots.
- Team building and problem solving challenges
- All materials.
